

Year 7 Summer Maths Project ...

Research a Famous Mathematician

Design a visual aid which will inform people about your chosen mathematician. This could be a poster, a model, a painting ... it's up to you!

It needs to be:

- Informative
- Visually appealing
- Creative.

Choose anyone from the list on the right ... or find your own

Your project needs to be **in your own words** and should include pictures.

Checklist

- 1) Who is it?
- 2) Where are they from?
- 3) When were they alive, or are they still alive?
- 4) What maths do they/did they do? (Don't worry if you don't understand the maths, just say why they are important...)

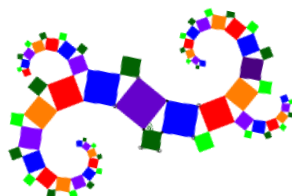

Remember, this is display work so presentation is important!

Bring your completed project to your Maths teacher during the first week of school in September.

All work will be judged and prizes will be awarded!

Have Fun!
